

September 30, 2010

Dear Michelle,

Enclosed, please find the latest donation of \$50 from our Charitable Giving Campaign.

Just to update you, our Charitable Giving Campaign runs like this:

A patient sees us for a new patient initial exam and receives a full examination and full x-rays, in exchange for a donation of \$50 or more to charities. We have 8 charities in our Charitable Giving Campaign, and of course yours is very prominent in that campaign.

Thus far, the campaign has generated almost \$94,000 in donations, with \$8,385 donated to The American Red Cross. We hope to achieve the \$100,000 milestone within a few short months.

One way in which you can help us to achieve that is to recommend your friends to our office. We do a full dental examination doing those specialty services which we do here, and referring the patient back to the patient's general dentist for general dental services which may be indicated. You would be surprised at the number of people who find out new things about their mouths and find solutions they didn't even know existed.

Besides doing full dental examinations, our specialty areas are dental implants, gum disease, cosmetic gum treatment, and sleep apnea.

If there is anything we can do to help you, please don't hesitate to let us know. This has been a gratifying campaign for me and I hope that you are seeing tangible benefits from being included in our campaign.

Sincerely yours,

Lee N. Sheldon, DMD
